

Two-factor recovery codes

Recovery codes can be used to access your account in the event you lose access to your device and cannot receive two-factor authentication codes.

Recovery codes

Treat your recovery codes with the same level of attention as you would your password! We recommend saving them with a password manager such as [Lastpass](#), [1Password](#), or [Keeper](#).

Put these in a safe spot. If you lose your device and don't have the recovery codes you will lose access to your account.

Generate new recovery codes

When you generate new recovery codes, you must download or print the new codes. Your old codes won't work anymore.
